

Student Assistant – Industrial Engineering

The Company:

Would you like to become a Student Assistant (Industrial Engineering) and assist Mark & Wedell A/S (M&W) with creating technical drawings and specifications as well as assist with technical product marketing and project engineering? M&W is a globally oriented mechanical/electrical engineering and manufacturing company located in Kvistgaard, 40 km north of Copenhagen. M&W is serving a solid and growing international customer base within the global mining-, minerals-, metals-, power generation- and big science markets.

Mark & Wedell A/S is an engineering- and production company with its own products and production facility. We are predominantly operating within: Mining and Minerals, Power Generation and Big Science.

The product portfolio spans from sampling equipment (Mining, Minerals, Cement, Fertilizer etc.), measuring equipment (Power) and Superconducting Current Leads (Big Science). The organization consists of approx. 30+ employees split evenly between production and engineers/administration staff. Mark & Wedell A/S is an internationally oriented organization with 75% of our revenue from export markets.

The Candidate:

We are looking for a candidate who has the following competencies:

- A bachelor / master's degree in mechanical, industrial or production engineering, with at least 1 year left of education and at least 1 year of study.
- Be able to demonstrate a strong technical understanding with focus on mechanical engineering and machines/ instruments.
- Proficient user of MS Office (especially Excel)
- Both commercial and technical knowledge and experience.
- Experienced in CAD programs, and able to assist in converting old 2D drawings into 3D.
- A structured and action-oriented approach with an ability to work independently.
- Energetic and result oriented, yet a pro-active and pragmatic team player.
- Professional fluency in English and Danish, both written and verbally

The Position:

The candidate will assist in the following working areas:

- Create technical specifications and descriptions of our products.
- Technical construction drawings in AutoCAD.
- Assistance with technical manuals.
- Product marketing for our website.
- Assistance re. project engineering
- Technical procurement
- The candidate will report directly to one of the owners of Mark & Wedell.

We offer:

- The position is estimated to 10-15 hours per week.
- Flexible working hours, that match your studies, with the possibility to work from home some days.
- A job in an international company with a premium brand and presence in all parts of the value chain from product development, construction, production, sales, project management, installation, commissioning and after sales.
- A chance to work within an agile and non-hierarchical organization and being close to the executive management.

We are looking forward to hearing from you and get you onboard to help move Mark & Wedell A/S forward. Please sent your application as soon as possible since we interview candidates on an ongoing basis.

Please send your application to: m-w@mark-wedell.com
